PROFILE

I'm a Fresh Graduate in Computer Science from UNIKOM, I have a deep interest in software development and have practical skills in full-stack web development, Python3, and C#. I am committed to continuously learning and adapting to new technologies. I'm currently seeking an entry-level position to start my career in the IT field.

EDUCATION

Universitas Komputer Indonesia

2019 - 2024 Computer Science

GPA: 3.15

Thesis : Development of Desktop Based Translator Application Using OCR as Japanese Language Learning Tool

- Developed desktop applications using Python 3 and the Qt Framework
- Integrated technologies such as Tesseract OCR, Translator API, and Japanese Text Parser (MeCab)
- Created data processing for bookmarked words using SQLite.

EXPERIENCE

INTERNSHIP

PT Hafara Group

September 2022 - October 2022

- Built a website with WordPress and Elementor.
- Developed a simple payment form with native PHP, CSS, JavaScript, and TriPay API.

CERTIFICATIONS

- BNSP - Junior Web Developer, Feb 2024
- Dicoding - Memulai Pemrograman Python, Dec 2023
- Dicoding - Dasar Visualisasi Data, Dec 2023
- Agate Academy - Game Programming, 2022

SKILLS

- Programming Language: PHP, Javascript, Typescript, C#, Python,
- Framework/Tech/Tools: ReactJs, NextJs, Tailwind, .Net, Unity Engine, Figma
- Database: MySQL, Oracle, SQLite
- Language: Bahasa Indonesia (Native), English (Intermediate), Japanese (Basic)

Muhammad Farhan Roesfiazhar

muhfarhanr10@gmail.com | +6287823725357 | porto.mfrworks.my.id

PROFILE

Software Engineer with 1.5 years of experience in backend development and systems integration. Proficient in stacks such as Python, JavaScript, FastAPI, Redis, and Docker. Capable of managing complex data flows and resolving various technical issues. Seeking to leverage these skills to grow a professional career as a programmer

EDUCATION

Universitas Komputer Indonesia

Bachelor of Informatics Engineering | Cumulative GPA: 3.15/4.0

Undergraduate Thesis: Development of a Desktop-Based Translator Application Using OCR as a Japanese Language Learning Tool

- Built a desktop application using Python 3 and Qt Framework (PyQt) to assist in Japanese language learning through video games.
- Integrated Tesseract OCR, Translation APIs, and MeCab (Japanese Text Parser) for text extraction and analysis.
- Implemented local data storage for word bookmarking features using SQLite.

WORK EXPERIENCE

PT Solusi Integrasi (Smartleaders)

Software Engineer (October 2024 - Present)

- Developed and customized Odoo modules specifically for a Pertamina LPG delivery management application.
- Implemented Docker to containerize APIs and Odoo applications for development and deployment standardization.
- Designed and built RESTful APIs using FastAPI for external third-party integrations.
- Integrated Redis to stream real-time shipment reports from multiple Odoo applications to a centralized database, implementing a Dead Letter Queue (DLQ) for data integrity.
- Managed Linux production servers, including system migration, deployment setup, and handling application issues directly in production.
- Managed an Odoo-based Kiosk application using Vanilla JavaScript, HTML, and Owl.js for the user interface..

CERTIFICATIONS

- BNSP - Junior Web Developer, Feb 2024
- Dicoding - Memulai Pemrograman Python, Dec 2023
- Dicoding - Dasar Visualisasi Data, Dec 2023
- Agate Academy - Game Programming, 2022

SKILLS

- | | |
|------------------------|----------|
| • Python3/FastAPI/Odoo | • Docker |
| • JavaScript | • Linux |
| • PostgreSQL | • Git |
| • Redis | |

PROFIL

Software Engineer dengan pengalaman 1,5 tahun di bidang backend development dan integrasi sistem. Menguasai stack seperti Python, JavaScript, FastAPI, Redis, dan Docker. Mampu menangani alur data yang kompleks serta menyelesaikan berbagai masalah teknis. Berkeinginan untuk memanfaatkan keahlian dan mengembangkan karir profesional sebagai *programmer*.

PENDIDIKAN

Universitas Komputer Indonesia

S1 Teknik Informatika | IPK: 3.15/4.0

Skripsi: Pembangunan Aplikasi Penerjemah Menggunakan OCR sebagai Alat Bantu Pembelajaran Bahasa Jepang Berbasis Desktop

- Membangun aplikasi desktop menggunakan Python 3 dan Qt Framework (PyQt) untuk membantu pembelajaran bahasa Jepang melalui video games.
- Mengintegrasikan Tesseract OCR, API Penerjemah, dan MeCab (Pemecah Teks Bahasa Jepang) untuk ekstraksi dan analisis teks.
- Menerapkan penyimpanan data lokal untuk fitur penandaan kata menggunakan SQLite.

PENGALAMAN KERJA

PT Solusi Integrasiindo (Smartleaders)

Software Engineer (Oktober 2024 - Sekarang)

- Mengembangkan dan membuat modul Odoo kustom khusus untuk aplikasi manajemen pengiriman LPG Pertamina.
- Mengimplementasikan Docker untuk melakukan *Containerize* pada API dan aplikasi Odoo untuk standarisasi *development* dan *deployment*.
- Merancang dan membangun RESTful API menggunakan FastAPI untuk integrasi pihak eksternal.
- Mengintegrasikan Redis untuk mengirim data report shipment secara realtime dari banyak aplikasi Odoo ke Database terpusat dengan menerapkan Dead Letter Queue (DLQ) untuk integritas data
- Mengelola Linux production server, termasuk migrasi sistem, deployment setup, dan handle masalah aplikasi di lingkup produksi.
- Mengelola aplikasi Kiosk berbasis Odoo dengan Vanilla JavaScript, HTML, dan Owl.js untuk antarmuka pengguna.

SERTIFIKASI

- BNSP - Junior Web Developer, Feb 2024
- Dicoding - Memulai Pemrograman Python, Des 2023
- Dicoding - Dasar Visualisasi Data, Des 2023
- Agate Academy - Game Programming, 2022

KEMAMPUAN

- | | |
|------------------------|----------|
| • Python3/FastAPI/Odoo | • Docker |
| • JavaScript | • Linux |
| • PostgreSQL | • Git |
| • Redis | |
